App Development Packages

From a simple single-platform app to a full-scale enterprise solution — choose the package that fits your product stage.

Package	What's Included	Timeline	Price
Basic App	Single platform (Android or iOS), up to 5 screens, static/informational content, no backend, app store listing	2-3 weeks	₹30,000
Standard App	Cross-platform (Android + iOS), up to 10 screens, backend + database, admin panel, push notifications	4-6 weeks	₹85,000
Advanced App	Everything in Standard App + user authentication (login/signup), payment gateway integration, real-time features (chat/live updates)	6-8 weeks	₹1,50,000
Enterprise App	Everything above + third-party API integrations, analytics dashboard, multi-role admin panel, scalable architecture	10-12 weeks	₹2,50,000+

What Each Package Includes

- Basic App — a lightweight app for one platform (Android or iOS), ideal for informational or portfolio-style apps with no backend requirements.
- Standard App — a cross-platform app (Android + iOS from one codebase) with a backend, database, admin panel, and push notifications — suited for most business apps.
- Advanced App — adds user login/signup, payment gateway integration, and real-time features like chat or live updates, for apps with transactions or user accounts.
- Enterprise App — a fully scalable solution with third-party integrations, analytics, and a multi-role admin panel, built for apps expecting significant growth or complex workflows.

Add-Ons

Extend any package with the following services.

Add-On	Details	Price
Extra Screens	Per additional screen/page beyond package scope	₹2,000/screen
Monthly Maintenance	Bug fixes, minor updates, OS compatibility checks	₹5,000/mo
App Store + Play Store Publishing	Account setup & submission on both stores	₹5,000
Push Notification System	If not included in base package	₹8,000
Payment Gateway Integration	Razorpay / Stripe / PayU integration	₹12,000
Admin Dashboard	Web-based dashboard to manage app content/users	₹20,000
UI/UX Redesign	Custom design overhaul for existing app	₹25,000+

Terms & Notes

- All prices are in INR (₹) and exclusive of applicable GST.
- 50% advance to begin work; balance due before final delivery/publishing.
- Google Play Store (one-time) and Apple App Store (annual) developer account fees are billed at actuals, not included in the package price.
- Third-party API/service costs (SMS, maps, cloud hosting, etc.) are billed separately at actuals.
- Scope beyond the package (extra screens, platforms, or features) can be added at an extra cost — ask for a quote.
- Quote valid for 30 days from the date of this proposal.
