Website Packages

From a simple static site to a full online store — choose the package that fits where your business is today.

Package	What's Included	Timeline	Price
Starter Site	Static website, WhatsApp chat integration, domain registration, 1 year support	5-7 days	₹8,000
Dynamic Site	Everything above + database integration + user authentication (login/signup)	2-3 weeks	₹15,000
E-Commerce Site	Full online store — product catalog, cart, checkout, payment gateway integration	3-4 weeks	₹22,000

What Each Package Includes

- Starter Site — a clean single/few-page static website with a WhatsApp chat button so customers can message you directly, your domain registered, and 1 year of support/maintenance included.
- Business Site — builds on Starter Site with additional pages (About, Services, Gallery, Contact, etc.) plus on-page SEO and Google Search Console indexing so your site shows up in search results.
- Dynamic Site — adds a database-backed back end and user authentication (login/signup), suited for portals, membership sites, or apps that need to store and manage user data.
- E-Commerce Site — a complete online store with product catalog, shopping cart, secure checkout, and payment gateway integration (Razorpay/Stripe/PayU etc.).

Terms & Notes

- All prices are in INR (₹) and exclusive of applicable GST.
- 50% advance to begin work; balance due before the site goes live.
- Domain renewal after year 1 and hosting charges (if applicable) are billed separately at actuals.
- Payment gateway transaction fees (for E-Commerce Site) are charged by the payment provider, not included in the package price.
- Number of pages/products beyond the standard scope can be added at an extra cost — ask for a quote.
- Quote valid for 30 days from the date of this proposal.
