# A NEW WAY TO LEARN, *for a brighter tomorrow.*

**BEYOND TEXTBOOKS. BEYOND THE ORDINARY.**

At Beyond, we believe learning should be more than listening, memorizing, and taking exams. It should spark curiosity, inspire creativity, and encourage students to discover what they're capable of.

An initiative by Focsera, Beyond brings emerging technologies, practical skills, and real-world experiences into schools through interactive workshops, engaging events, and experiential learning programs.

Our mission is simple — **make learning exciting, relevant, and accessible to every student.**

## EXPLORE
Discover new possibilities

## EXPERIENCE
Learn through action

## EVOLVE
Grow with confidence

> "Every student has a future worth *exploring.*"

We're here to help them get there.

beyond BY FOCSERA

# THE WORLD IS CHANGING. *Is learning keeping up?*

Today's students are growing up in a world shaped by artificial intelligence, emerging technologies, creativity, and constant innovation.

While classroom education builds essential academic foundations, students also benefit from opportunities to explore technology, develop practical skills, communicate confidently, and solve real-world problems.

**Beyond bridges this gap through fun, interactive, hands-on learning experiences.**

### 01. TECHNOLOGY EXPOSURE

Introducing students to AI, robotics, digital tools, and emerging technologies.

### 02. CREATIVE THINKING

Encouraging curiosity, experimentation, and innovative problem-solving.

### 03. CONFIDENCE & LIFE SKILLS

Developing communication, teamwork, leadership, and self-expression.

### 04. REAL-WORLD EXPERIENCES

Learning through workshops, challenges, projects, and interactive events.

We don't replace classrooms.
*We take learning beyond them.*

beyond BY FOCSERA

# ONE WORLD. *Endless Possibilities.*

From emerging technologies to creativity, communication, and real-world experiences, Beyond brings exciting learning opportunities together under one roof.

## 01. FUTURE TECH

**Explore tomorrow's technology, today.**

From Generative AI and Vibe Coding to intelligent automation and next-generation digital tools, students discover, experiment, and create with the technologies shaping tomorrow.

Generative AI | Vibe Coding
Prompt Engineering | No-Code Tools
AI Automation | Emerging Tech

## 02. CREATIVE SKILLS

**Turn ideas into impactful creations.**

Hands-on learning in design, photography, video editing, and digital creativity to help students express, explore and bring their ideas to life.

Design | Photography | Video Editing
Content Creation | Digital Storytelling

## 03. LIFE SKILLS

**Stronger skills for a brighter tomorrow.**

Build essential life skills like communication, teamwork, leadership, and self-expression through engaging and experiential activities.

Communication | Teamwork
Leadership | Self-Expression
Confidence Building

## 04. EVENTS & CHALLENGES

**Learn. Compete. Grow.**

Exciting events, innovation summits, competitions, and interactive challenges that spark curiosity and bring out the best in every student.

Innovation Summits | Competitions
Interactive Activities | School Events

## 05. SKILL LABS

**Hands-on learning for real-world skills.**

Interactive labs and workshops to build, experiment, and solve real-world problems through hands-on learning experiences.

STEM Labs | Making & Prototyping
Hands-on Workshops | Experimentation

## 06. CAREER DISCOVERY

**Explore. Understand. Prepare.**

Help students discover future careers, understand industry skills, and explore the vast opportunities available in the evolving world.

Career Exploration | Industry Insights
Future Skills | Guidance & Mentorship

Different experiences.
*One extraordinary learning journey.*

# PromptX

THE AI EXPERIENCE

IDEAS
PEOPLE
SKILLS
IMPACT

## UNLOCK CREATIVITY WITH AI.

PromptX is an interactive, hands-on workshop program that introduces school students to the world of Artificial Intelligence. Through fun activities, real-world use cases, and guided practice, students learn to think creatively, use AI tools responsibly, and bring their ideas to life.

### Explore

Discover how AI works and where it's used.

### Create

Use AI tools to generate, design, and experiment with ideas.

### Practice

Hands-on activities and real-world problem solving.

### Build

Turn ideas into projects and present them with confidence.

SAME CURIOSITY. BIGGER POSSIBILITIES.

## FROM IDEAS TO REAL POSSIBILITIES.

"Same Tools. New Perspectives. Brighter Tomorrows.

# A SUMMIT FOR YOUNG INNOVATORS.

InnovateX SUMMIT
THE YOUNG INNOVATORS SUMMIT

IDEAS
PEOPLE
SKILLS
IMPACT

**InnovateX Summit** is a flagship experience by Beyond, designed for school students to explore, create, collaborate, and showcase their ideas. It brings together curious minds for a day of learning, innovation, and real-world exposure.

## Learn

Engaging sessions on emerging technologies, innovation, and real-world problem solving.

## Collaborate

Work with peers from different schools, exchange ideas, and build together.

## Create

Hands-on activities and challenges to turn ideas into working prototypes.

## Showcase

Present your ideas to mentors, industry experts, and a wider audience.

*A platform for bold ideas and brighter tomorrows.*

## Who Can Participate?

Open to school students who are curious, creative, and eager to explore new possibilities.

beyond BY FOCSERA

STRUCTURED LEARNING / YEAR-LONG PROGRAM

# NOT JUST A WORKSHOP. *A JOURNEY.*

## Beyond Future Skills Program

**Small steps. Real skills. Big possibilities.**

Beyond's structured learning program helps students develop practical skills progressively throughout the academic year.

**3** Grade-based learning tracks

**20** Sessions per track in the full model

**60** Total sessions across all tracks

## Three pathways for growing minds

### Creative Exploration

**Classes 6 & 7**

Explore visual design, storytelling, photography, AI basics, and digital creativity.

### Skill Development

**Classes 8 - 10**

Develop skills in branding, UI/UX, video editing, content creation, and digital communication.

### Career Launch

**Classes 11 & 12**

Experience entrepreneurship, prompt engineering, personal branding, portfolio development, and startup pitching.

## How students learn

**Learn** → **Practice** → **Create** → **Showcase**

Every session encourages students to produce something meaningful, receive feedback, and build confidence through hands-on participation.

IDEAS SKILLS PROJECTS CONFIDENCE A BRIGHTER YOU.

From curious beginners to *confident creators.*

beyond BY FOCSERA

PRACTICAL LEARNING / HANDS-ON EXPERIENCES

# LESS THEORY. MORE DOING.

## *Real Tools. Real Projects. Real Confidence.*

**Beyond Skill Labs** turn students from passive learners into active creators through guided, hands-on experiences.

### Explore our creative labs

### Design & Branding

Posters, logos, visual storytelling, and brand identity.

Graphic Design | Branding | Visual Storytelling | Canva & More

### Content & Media

Video editing, reels, photography, and podcasting.

Video Editing | Photography | Reels & Short Form | Podcasting

### AI & Digital Tools

Prompt engineering, Generative AI, and creative AI applications.

Prompt Engineering | Generative AI | AI Tools | Automation

### Innovation & Entrepreneurship

Design thinking, startup ideas, and business pitches.

Ideation | Design Thinking | Startup Projects | Pitching

### The outcome:

Students create a portfolio of projects they can showcase, explain, and build upon.

PORTFOLIO | PRESENT | EXPLAIN | GROW

## Don't just learn the tools. *Create something extraordinary.*

LEARNING ROADMAP / ACADEMIC YEAR

beyond BY FOCSERA

# EVERY SESSION. *A NEW POSSIBILITY.*

SAME CURIOSITY. BIGGER OPPORTUNITIES. ☺

## The Beyond Learning Journey

The complete learning model spans four terms, taking students from discovery to independent creation and a final showcase.

### 1 TERM 01 → EXPLORE

Discover digital tools, AI basics, design fundamentals, and creative thinking.

**Outcome:** Curiosity and foundational confidence

### 2 TERM 02 → EXPERIMENT

Try content creation, visual storytelling, communication, and practical challenges.

**Outcome:** Hands-on skills and creative expression

### 3 TERM 03 → CREATE

Develop original projects, collaborate in teams, and solve real-world problems.

**Outcome:** Independent thinking and project experience

### 4 TERM 04 → SHOWCASE

Refine projects, prepare portfolios, present achievements, and celebrate progress.

**Outcome:** Confidence, recognition, and visible growth

**20**
Sessions per grade group, organized across four terms.

Each session is designed to be interactive, practical, and age-appropriate.

Flexible format that can be customized based on the school's academic calendar.

One academic year.
*Countless opportunities to grow.*

beyond BY FOCSERA

# CONFIDENCE IS A SKILL. *Let's Build It.*

## Because success takes more than marks.

Beyond helps students develop the essential human skills that support academic success, personal growth, and future opportunities.

## Skills that stay for life

These skills go beyond the classroom and help students in academics, careers, and life.

01
### Communication
Express ideas clearly and confidently.

02
### Leadership
Take initiative, make decisions, and inspire others.

03
### Teamwork
Collaborate with people and respect different perspectives.

04
### Critical Thinking
Analyze situations and approach challenges logically.

05
### Creative Problem-Solving
Think differently and discover possibilities.

06
### Emotional Awareness
Develop empathy, resilience, and self-awareness.

## How we develop these skills

Group Discussions | Role-Play Activities | Presentations | Team Challenges | Mentorship Sessions

### *Beyond's approach:*

Every student deserves the opportunity to speak, participate, contribute, and discover their strengths.

***Learn to speak up. Learn to stand out.***

beyond BY FOCSERA

EMERGING TECHNOLOGIES / FUTURE READINESS

# THE FUTURE ISN'T WAITING. *Why Should We?*

## Introducing tomorrow's technologies, today.

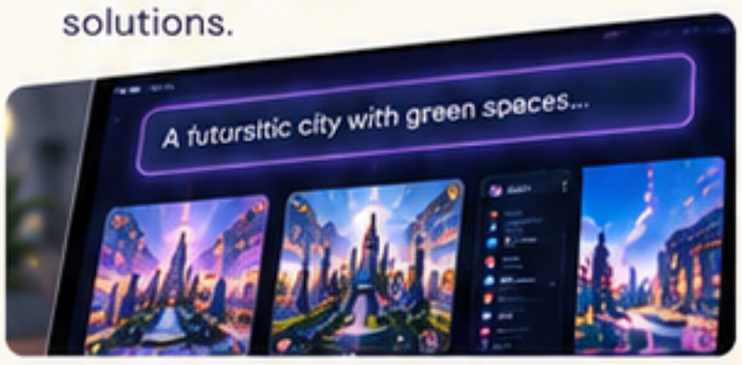
Technology is evolving rapidly. Beyond gives students an early, accessible introduction to the tools and ideas shaping the digital world.

01

### Generative AI

Explore intelligent creative tools.

Discover how AI can help you create content, visuals, ideas, and solutions.

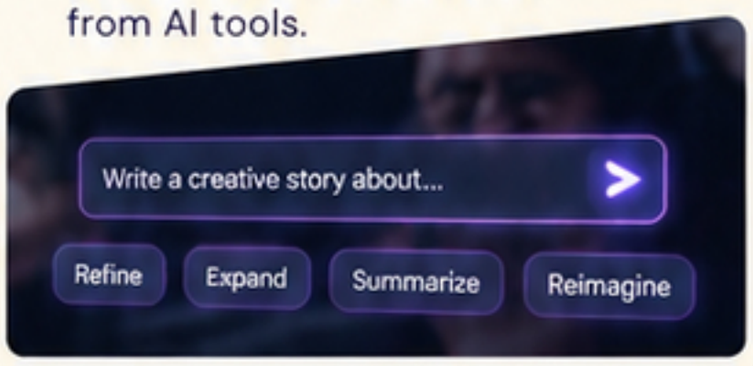


02

### Prompt Engineering

Learn to communicate with AI.

Understand how to write effective prompts and get better, more useful results from AI tools.

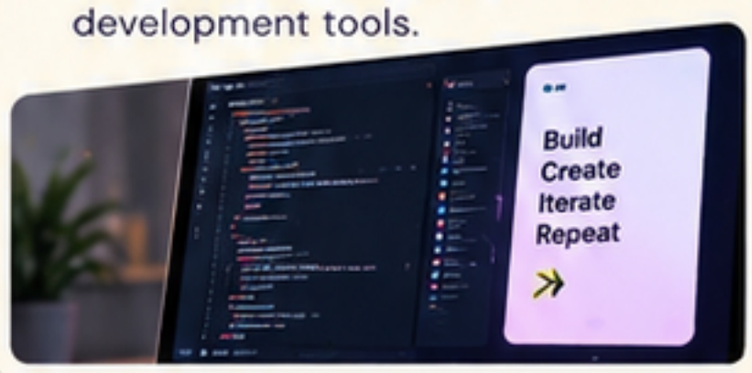


03

### Vibe Coding

Turn ideas into digital prototypes.

Build simple apps and web experiences using AI-assisted and intuitive development tools.

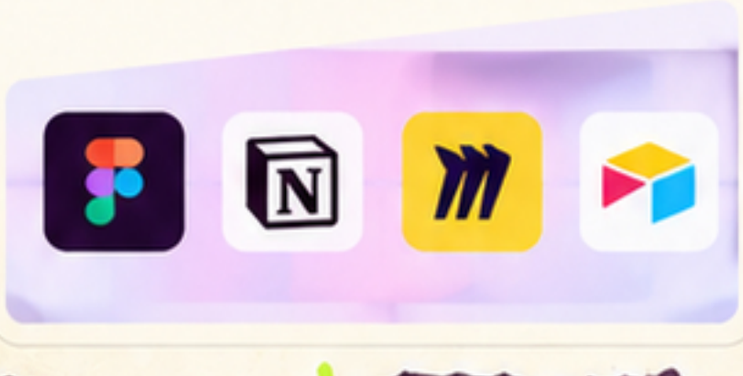


04

### No-Code Tools

Build without complex programming.

Create websites, apps, and automations using powerful no-code platforms.

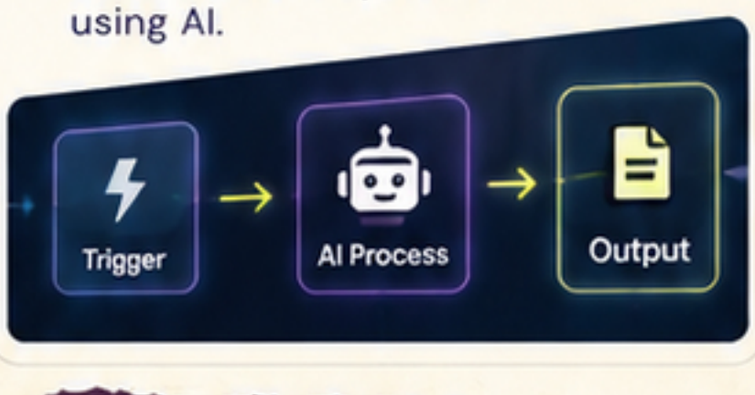


05

### AI Automation

Understand smarter digital workflows.

Learn how to automate tasks, save time, and build efficient systems using AI.



06

### Emerging Tech

Discover new technology possibilities.

Get introduced to exciting fields like AR/VR, robotics, blockchain, and other future technologies.

EXPLORE LEARN EXPERIMENT CREATE GROW

## *Explore what's next. Create what's possible.*

TEACHER ENABLEMENT / SCHOOL DEVELOPMENT

beyond BY FOCSERA

# WHEN EDUCATORS GROW, *Students Thrive.*

**Future-ready teachers.**
**Future-ready classrooms.**

Beyond supports educators through practical technology orientation and professional development workshops, helping them bring new ideas, tools, and confidence into the classroom.

## Areas of teacher enablement

01

### AI for Educators

Discover how AI tools can assist with lesson planning, classroom activities, assessments, and educational content.

02

### Creative Teaching Tools

Explore presentations, interactive tools, visual storytelling, and creative methods to make learning more engaging.

03

### Responsible Technology Use

Understand safe, ethical, and effective use of AI and digital tools in education.

04

### Engaging Learning Experiences

Learn hands-on strategies to create interactive, participatory, and student-centered classrooms.

## The impact

- More confident and future-ready educators.
- More engaging and effective classrooms.
- Better learning experiences for students.

Our goal:
*Empower educators today for a brighter tomorrow.*

beyond BY FOCSERA

# THE BEYOND EXPERIENCE.

## *Real Learning. Real Moments. Real Growth.*

**Beyond** brings learning to life through hands-on workshops, creative activities, real-world projects, and engaging school events — creating memorable experiences that go beyond the classroom.

### Hands-on Workshops

Learn by doing with engaging and interactive sessions.

### Collaborative Projects

Work in teams, solve real problems, and build innovative solutions.

### Student Showcases

Present your ideas, projects, and creativity to your peers and community.

### Creative Activities

Explore your creativity through design, media, and hands-on challenges.

### Tech & Innovation

Get introduced to AI, coding, robotics, and future technologies.

### Memorable Experiences

Fun events, competitions, and learning moments that stay with you.

*More than a program, it's a journey of discovery.*

# WHY SCHOOLS CHOOSE BEYOND.

*Happier Students. Stronger Schools. Brighter Futures.*

Beyond partners with schools to bring future-ready learning experiences that inspire students, support teachers, and create a stronger school community.

## For Students

- Hands-on learning experiences
- Build real-world skills
- Explore new interests
- Gain confidence and creativity
- Be future-ready

## For Schools

- Enrich your academic programs
- Engage students beyond textbooks
- Access expert-led workshops
- Strengthen your school's brand
- Showcase innovation and progress

## For Parents

- Support your child's personal growth
- Exposure to future-ready skills
- Build confidence and life skills
- Safe, structured learning environment
- Better preparation for future careers

*Partner with Beyond.*
*Let's create brighter futures — together.*

beyond BY FOCSERA

# PARTNER WITH BEYOND.

## *Three Signature Programs for Schools.*

Engaging, hands-on learning experiences designed for today's students and tomorrow's opportunities.

### InnovateX
Innovation Workshops for Young Minds

Hands-on innovation workshops that spark curiosity, creativity, and problem-solving.

- Design thinking & ideation
- Team-based challenges
- Build real-world projects
- Explore emerging technologies
- Showcase and present ideas

### PromptX
AI & Creativity Workshops for Schools

Interactive workshops to help students understand and create with Generative AI.

- Introduction to Generative AI
- Prompt engineering and creativity
- Hands-on AI projects
- Ethical and responsible AI use
- Real-world applications in daily life

### Year-Long Skill Programs
A Complete Learning Journey for Future-Ready Students

Structured, long-term programs to build in-demand skills through consistent practice and real projects.

- Technology and digital skills
- Project-based learning
- Mentorship and guidance
- Skill assessments and feedback
- Final showcase and certification

*Let's bring the next generation closer to what's possible.*

beyond
BY FOCSERA

# LET'S CREATE BRIGHTER FUTURES.

At **Beyond**, we believe in a world where every student has access to the skills, exposure, and opportunities to discover their potential and shape a better tomorrow.

Together with schools, educators, parents, and students, we're building a generation that's curious, creative, and future-ready.

### Curiosity Today.

Hands-on exploration that sparks new ideas.

### Skills Tomorrow.

Real-world skills for real opportunities.

### Opportunities Ahead.

Exposure, experiences and guidance to go further.

### Stronger Together.

Students, schools, parents and communities moving forward as one.
